PROFESSIONAL SUMMARY

Innovative and detail-oriented **Full-Stack Web Developer** with over **4+ years of professional experience** designing, developing, and deploying scalable, high-performance web and mobile applications. Skilled across the full software development lifecycle, with expertise in **React**, **Next.js**, **Node.js**, and modern **DevOps** practices including **Docker** and **CI/CD pipelines**. Experienced in building **e-commerce**, **corporate**, and **government platforms** using robust, maintainable architectures.
 Recognized for exceptional **research ability**, **rapid learning**, and commitment to delivering efficient, user-focused solutions. Adept at collaborating with designers, product managers, and engineers in **agile, remote-first teams** to deliver impactful digital experiences.

TECHNICAL SKILLS

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, SASS, JavaScript (ES6+)
Backend: Node.js, Express.js, REST APIs, Serverless patterns, Supabase, Firebase (Firestore)
Mobile: React Native (cross-platform mobile development)
DevOps / Cloud: Docker, GitHub Actions, CI/CD pipelines, Vercel, Netlify
Databases: PostgreSQL, MySQL, Firebase (Firestore)
Tools & Others: Git, Agile/Scrum, Jira, Figma (handoff), Postman, Chrome DevTools

---

CORE COMPETENCIES

Full-Stack Development • Frontend Architecture • API Integration • CI/CD Automation
Responsive Web Design • Cloud Deployment • Performance Optimization
Cross-Functional Collaboration • Agile & Scrum Methodologies • Scalable Code Design
Research & Problem Solving • Clean, Maintainable Code • Continuous Learning

---

PROFESSIONAL EXPERIENCE

Full Stack Developer — Netan Technology

Remote | 2021 – Present

- Design, develop, and maintain responsive, production-grade web applications using **React**, **Next.js**, and **Node.js**.

- Implement robust **CI/CD pipelines** with **Docker** and **GitHub Actions**, improving deployment speed and reliability.

- Lead front-to-back integration for e-commerce and content-based platforms, optimizing both UI responsiveness and backend performance.

- Collaborate with cross-functional teams to define technical requirements, estimate workloads, and deliver client-ready solutions.

- Contributed to the development of **confidential government platforms (Using Drupal)** and internal SaaS tools.

- Conduct deep technical research to identify the most efficient tools and frameworks for each project, ensuring long-term scalability.

Freelance / Contract Web Developer

Remote | 2019 – 2021 (and ongoing freelance work alongside full-time role)

- Delivered professional-grade websites and applications for SMEs, startups, and agencies across diverse industries.

- Built **e-commerce**, **blog**, and **portfolio** platforms tailored to client goals, integrating payments and admin dashboards.

- Optimized site performance, SEO, and code maintainability through modern design patterns and responsive UI/UX.

- Provided consulting on stack choices, infrastructure setup, and cost-effective cloud deployment strategies.

SELECTED PROJECTS (shareable)

Netan Technology — https://netantech.com

A technology company website showcasing services and projects. Built for speed, scalability, and ease of content management.

Symbol Stores (E-commerce) — https://www.symbolstores.com

An e-commerce platform with complete product catalog, shopping cart, and checkout flow. Integrated secure payment APIs and optimized for conversion.

Opulence Interiors (Design Agency) — https://www.opulenceinteriors.com.ng

A marketing and portfolio site for an interior design company, featuring gallery pages, project showcases, and contact lead capture flows.

Additional Confidential Projects:

- Government websites built with **Drupal** (details restricted under NDA).

- Private internal dashboards and enterprise portals for various clients.

PROFESSIONAL STRENGTHS

- **Research-Oriented Developer** — excellent at identifying, evaluating, and integrating new technologies.

- **Rapid Learner** — quickly adapts to new frameworks, libraries, and workflows.

- **Attention to Detail** — ensures accessibility, performance, and code quality in every project.

- **Team Collaboration** — effective communicator experienced in agile, remote environments.

- **Ownership Mindset** — takes responsibility from ideation to deployment and continuous improvement.
